Call for articles or special issue proposals

Quest invites proposals for special issues on a topic or theme that fits within the scope of the magazine, which is: a popular science magazine aimed specifically at the youth and the general public who have an interest in the sciences. It aims to present South Africa's foremost scientific work in an accessible form and can be used to support curricula work at various levels and institutions.

Quest is distributed to public high schools, universities, libraries, science centres, government departments, parliamentary committees, embassies, non-government organisations, Technical and Vocational Education and Training Colleges and resource centres. Quest is also available at selected national science events, science Olympiads, events held by the Department of Science and Innovation, and at various community functions.

Quest is full-colour and published on a quarterly basis. Each issue aims to have a theme. For example, an issue may be aligned with the United Nations General Assembly themes: the International Year of Artisanal Fisheries and Aquaculture (IYAFA 2022) and the International Year of Glass (IYOG 2022).

An issue of Quest typically comprises five themed articles (1500 words), five feature articles (1300 words), four news pieces (500 words), and two to three book reviews (400 words). Images, graphics, infographics, etc. are encouraged.

We encourage early career researchers and emerging researchers to take this opportunity, whether to help convene a special issue, or to write an article for Quest. It is an excellent means to illustrate research translation. Your ORCID number is included with your written piece.

For more information or for the application form, please email: quest.editor@assaf.org.za
Quest is managed, hosted and published as an open access, free magazine by:
